

Brickton Montessori School

COVID guidance chart

Every situation will be reviewed on a case-by-case basis to determine the appropriate steps and the local health department will be consulted when necessary.

Situation	Location of Contact	Vaccination Status	School Attendance	Quarantine	Testing	Mask Wearing
Displays COVID symptoms*	NA	Vaccinated or Unvaccinated	No	Stay home and test To return: 24 hours fever free, have improved symptoms	NAAT/PCR test	
Confirmed Positive Case	NA	Vaccinated	No	Isolate for 5 days To return: 24 hours fever free, have improved symptoms	Not required to return	Mask for days 6-10 indoors and outdoors (KN95 required)
Confirmed Positive Case	NA	Unvaccinated	No	Isolate for 5 days To return: 24 hours fever free, have improved symptoms	Not required to return	Mask for days 6-10 indoors and outdoors, if in school (KN95 required)
Close Contact	Household	Vaccinated	Yes	Closely monitor for symptoms	Test on Day 5 (since contact)	Mask for 10 days**

* Symptoms: Fever (100.4°F or higher), new onset of moderate to severe headache, shortness of breath, new cough, sore throat, vomiting, diarrhea, new loss of sense of taste or smell, fatigue from unknown cause, muscle or body aches from unknown cause.

**Recommended: KN95 masks are the most effective protection following a confirmed COVID case in which you were a close contact

***Test to Stay: testing twice in a seven-day period, once between days 1 - 4 and again between days 5 - 7
